## Soil Permeability

### Formative Minitest

1. Identify the different types of soil:

\_\_\_\_\_

\_\_\_\_\_

\_\_\_\_\_

2. Tick the correct answer:

- ☐ All soils retain water in the same way.
- ☐ Different soils retain water in different ways.

3. Match.

- |            |   |  |
|------------|---|--|
| Clay Soil  | . | . allows some of the water to pass through, maintaining some humidity. |
| Loamy Soil | . | . retains most of the water and soaks easily.                          |
| Sandy Soil | . | . does not retain water and dries quickly.                             |

4. In your opinion what type of soil offers the best conditions for farming?
